

Thermaboil - 150 – 300kw Micro Condensing

About The Range:

Thermaright are very pleased to introduce one of the smallest temporary boilers in the industry. Designed and built with practical applications in mind this unit can be positioned through doors, in lifts, small corridors and pathways without compromise on performance and functionality of this fully contained plant room.

Unit Specification:

Output..... 150Kw-300Kw
Fuel type.....natural gas
Power supply.....240v 1phN+E 50Hz
Running current.....4amps
Plug type..... 16amp 3 pin BS4343
Maximum working pressure.....
Primary - 4bar
Secondary 6bar
Secondary pump 50-120

Noise level..... 46dBA @ 1m
Dimension 800mm X 1990 X 1999
Weight560kg
Boilers.....Low NOx < 40mg/kWh (class 6)
